We spend about one-third of our lives sleeping. Why? Believe it or not, scientists don't know for sure. But evidence is building that sleep may play a crucial role in strengthening memories and facilitating learning.

Rick Steves travels to learn about extreme poverty — the more than 700 million people who struggle to live on less than $2 a day. Ending hunger is possible.

Children’s Programming Highlights

This animated series centers on house cat Fred, a dreamer of the great outdoors. Once his family leaves for the day, Fred becomes Nature Cat and with the help of his animal friends, he embarks on action-packed adventures that allow him to explore the natural world.

The Earth science and astronomy take center stage in this animated series from PBS Kids. Two neighborhood kids -- Sean and Sydney -- befriend the new kid on the block, Jet Propulsion, who just happens to be an alien from planet Bortron 7. Together they explore the solar system and how it affects the planet, while also learning about friendship and teamwork.
